

Tuesday - 11 December 1951

1. Prepared memorandum calling the Administration Building's attention to the testimony of former Assistant Attorney General, T. Lamar Caudle, in which he indicated certain associations with CIA. Also informed Miss Holtzscheiter (office of Mr. Lay, Executive Secretary of the National Security Council) that Caudle had testified that he had passed certain information on to Sidney Souers.

2. Mr. Arens, Chief Clerk of the Immigration & Naturalization Subcommittee of the Senate Judiciary Committee, stated that they had received information that a CIA employee, [redacted] had administered a lie detector test to a senior official of the Department of State who was considered a sex deviate. Mr. Arens wished CIA to make the report of the test available to the Committee. I stated that I was quite certain that CIA did not polygraph officials of other Departments, and that if by any chance his report was correct, that such information would be classified under the President's Directive regarding loyalty files and we could not make it available.
